Software Engineering Lab Project Report Instruction (CEP-Based)

Cover Page: same as SRS, SDS, Test Plan

Title Page: same as SRS, SDS, Test Plan

Table of Contents

Auto-generated or manually listed sections with page numbers.

Note: Each chapter below will start in a new page. Use the sample report for reference. Remove the red marked text in chapter/section heading

1. Introduction

1.1 Background of the project
1.2 Problem statement
1.3 Objectives
1.4 Scope of the system
1.5 CEP Analysis (how the project meets continuous assessment requirements)

2 Project Management Plan (Follow the structure of the sample report)

3. Requirement Analysis and Specification

3.1 User Requirement

3.2 Functional Requirements

3.3 Non-Functional Requirements

3.4 Hardware & Software Requirements

4. System Design

4.1 System Architecture Diagram

4.2 Use Case Diagram

4.3 Data Flow Diagram (DFD) / UML Diagrams

4.4 Database Design (ER Diagram, Tables)

5. Implementation (CEP Focused)

5.1 Module Breakdown

5.2 Iterative Development

(Show how work is divided across weekly lab sessions)

5.3 Technology Stack

(e.g., Java, Python, MySQL, Web Technologies)

5.4 Development Methodology

Examples:

- Agile
- Scrum
- Waterfall
- Kanban

Also include:

- Project management tools used
    - Trello
    - Jira
    - GitHub: Add link to the GitHub rep

6. Development Process

6.1 Week-wise Progress (CEP Tracking Table)

Week	Tasks Completed	Evidence (Code/Output)	Remarks
1	Requirements	Docs	Completed
2	Design	UML Diagrams	Reviewed

…	…	…	…
8	Sprint 1	…	…
9	Sprint 2	…	…

6.1.1 Sprint Details

6.2 Coding Implementation

- Key modules/classes
- Important algorithms
- Screenshots of code/output

7. Testing and Sustainability (Use the Sample report format for this chapter)

8. Results and Discussion

- Final output screenshots
- System performance
- Issues encountered and solutions

9. Conclusion

- What was achieved
- Learning outcomes
- Future improvements

Acknowledgement

Appendix

- **Team Member Work Distribution week wise (Can skip this if it is already included in section 6.1.1)**
- **Git Link and Commit History**
- **Evidence of Interaction with stakeholders (Survey results, interviews, etc.)**
- **Others**
